Professional blue cordless tools with a system
for professionals from professionals

www.bosch-professional.uk.com

Developed for professionals, tested by professionals

As a professional, a lot is expected of you: speed, reliability, competence, endurance. In short: excellent results. So isn't it only fair to demand the same from your power tools?

Our professional blue cordless tools are part of the unique cordless system from Bosch, which consists of compact, powerful tools, innovative battery technology and an intelligent transport and storage system. They therefore give you more flexibility and comfort, ensuring that you have everything you need to achieve great, professional work results.

Bosch was the first to introduce lithium-ion technology in professional cordless tools and has continually developed it further ever since. When developing new professional cordless tools, Bosch works very closely with real professionals who use power tools as part of their everyday work. They test the tools in their day-to-day work and in extreme situations, such as drilling rows of holes in industrial buildings and fitting windows on a piecework basis. This means that you, the professional, can always count on this innovative technology.

Professional blue cordless tools with a system – Convincing solutions from Bosch for professionals from professionals.

Three advantages – One system

Bosch Premium lithium-ion technology

Bosch offers a complete cordless system for the professional user: powerful, compact tools in every voltage class, innovative battery technology and an intelligent transport and storage concept.

Bosch

Flexible Power System

The unique choice between two high-performance batteries per voltage class provides you with the optimum battery pack for every job: “Premium” battery for longer battery runtime or “Compact” battery with less weight for even more comfortable working.

Compact, powerful cordless tools

- The right tool from 3.6 to 36 volts for every job
- ▶ Extremely compact design and the best ergonomics due to innovative solutions such as the extremely small, brushless motor in the GBH 18 V-Li Professional
 - ▶ Optimum combination of power and weight for the best handling and fast work progress

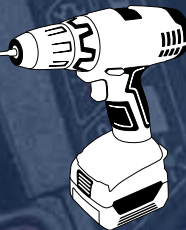

Innovative battery technology

- Bosch Premium lithium-ion technology: Unique lifetime and runtime**
- ▶ Bosch Electronic Cell Protection (ECP): protects the battery against overload, overheating and total discharge
 - ▶ Bosch high-performance battery packs: extremely resilient due to high current capable battery cells
 - ▶ Intelligent power management for perfect coordination of the Bosch high-tech electronics with the motor, gearbox and battery
 - ▶ Bosch Flexible Power System: for adapting the runtime and weight (see Page 6 for more information)

Intelligent transport and storage concept

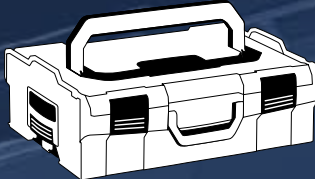

- Bosch L-BOXX – the intelligent system for transporting and storing power tools, accessories and consumables**
- ▶ Unbeatably easy system of clicking together and separating the different L-BOXXes for convenient transport of multiple power tools
 - ▶ Wide range of Bosch and Sortimo accessories for individually adapting and extending the storage system (see Page 6 for more information)
 - ▶ Exclusive compatibility with Sortimo: fits the German TÜV-tested in-vehicle equipment system perfectly and without an adapter

Compact tools

Innovative technology

Intelligent transport

“Unbelievable. This small 3.6 volt screwdriver drives 110 screws (3.5 x 30 mm) with a single battery charge. Now we can get rid of normal screwdrivers from our toolbox once and for all.”

Mathias Helmig,
refrigeration engineer

3.6 Volt

World’s smallest professional cordless screwdriver

Small and handy, the GSR ProDrive Professional from Bosch is exactly the right power tool for all small screwdriving jobs. Equipped with two replaceable Premium lithium-ion batteries, it is always ready for use. This makes the GSR ProDrive Professional the ideal tool for furniture and kitchen fitters, and for joiners.

GSR ProDrive Professional
World’s smallest professional cordless screwdriver

- ▶ Extremely small and handy – fits in any trouser pocket
- ▶ Powerful: 110 screws (3.5 x 30 mm in softwood) with only one battery charge
- ▶ Continuous work due to changeable battery and quick charger

“My employees and I are totally impressed by this tool: such power with such a small size and low weight.”

Gerd Junger,
master joiner

10.8 Volt series

Always within reach due to compact size

Cordless tools in the 10.8 Volt series from Bosch excel due to their exceptionally compact design and low weight. They are therefore always within reach, which makes them ideal for quick fitting and adjustment work. And their superior power makes them the perfect tools for kitchen, furniture and exhibition stand construction.

Suggested Selling Price (ex-VAT)	159.–	109.–

GWl 10.8 V-LI Professional: versatile, above all in tight spaces and hard-to-reach areas, thanks to the five head position settings (0°/22.5°/45°/67.5°/90°).

NEW! Cordless Impact Driver
GDR 10.8-LI Professional

The shortest and fastest tool in its class

- ▶ At 137 mm it has the shortest design in the 10.8 volt class for optimum handling, especially when driving screws overhead and in tight spaces
- ▶ Powerful 105 Nm torque for 80% of all conventional cordless impact driver applications in metal and concrete

**Cordless Angle Driver
GWl 10.8 V-LI Professional**

Compact, powerful, versatile

- ▶ Very compact: shortest adjustable head on the market at 95 mm, five head position settings
- ▶ Seven-stage electronic torque adjustment, and drill setting

The all-rounder
The Bosch Cordless Multi-cutter can perform various applications, including plunge cuts, flush sawing and sanding. And it does so without a cable, of course.

Cordless Multicutter GOP 10.8 V-LI Professional
Perfect trimming, adjusting, repairing

- ▶ Wide range of applications such as plunge cuts, flush sawing and sanding – supported by a comprehensive range of Bosch accessories
- ▶ Excellent handling due to compact design and weight of only 1.0 kg
- ▶ Up to 20,000 oscillations per minute for the same professional performance as comparable mains-powered tools

Sawing / Cutting

Rasping

Scraping

Sanding

A comprehensive range of accessories for other cordless tools can be found at www.bosch-professional.com

“The GSC has enormous power, but it’s small in size and low in weight. It can even be used to make cutouts on installed ventilation systems without any problems. I also work much faster with it than with conventional tin snips.”

Steffen Schulze,
HVAC installer

NEW! Cordless Metal Shear GSC 10.8 V-LI Professional
Cuts through metal four times faster with zero effort

- ▶ Makes straight and curved cuts up to four times faster than conventional tin snips
- ▶ Extremely powerful: effortlessly makes cuts up to 1.3 mm in metal
- ▶ Unbeatably light (only 1.4 kg) and extremely compact design for comfortable and low-fatigue working

Cordless Torch GLI 10.8 V-LI Professional
High lighting power for the whole working day

- ▶ Extremely bright light due to 1 Watt Power LED
- ▶ Energy-saving burn time for one working day (eight hours)
- ▶ Can be used with all 10.8 volt batteries

“It’s simply brilliant to have a 14.4 volt screwdriver that is this light, especially when performing lengthy overhead work. With its very slim handle, this screwdriver also sits perfectly in your hand.”

Jürgen Lutz,
plumber

14.4/18 Volt **light**series

The lightest cordless tools in their class

The entry-level tools in the new 14.4/18 Volt **light**series from Bosch are especially impressive in applications which are preferably done using a lightweight, universal tool for screwdriving, drilling and impact drilling (GSB version). The ideal application ranges are finishing and installation work with small to medium drilling and screw diameters. These tools impress not only with their low weight and easier handling, they are also low in price.

More information about the professional blue power tools and accessories can be found at www.bosch-professional.com

“We were constantly recharging half-full batteries because the power was gone. The new 14.4 volt lithium-ion cordless screwdrivers have now put an end to that. We can drive more than a pack of 200 screws, 6 x 60 mm, with only one battery charge.”

Andreas Wörlein,
master joiner

14.4/18 Volt **dynamic**series Unbeatable battery runtime

Cordless drill/drivers in the 14.4/18 Volt **dynamic**series from Bosch stand for unbeatable battery runtime. Proven in independent practical tests: no other tool in this class can drive more screws per battery charge. This makes them particularly suitable for driving rows of screws in exhibition stand construction and shopfitting work. Its unique endurance in combination with its high performance capability and compact design makes the Bosch **dynamic**series class the universal solution for all professional users.

14.4/18 Volt **dynamic**series

► Drill/Drivers

P. 22

The long-distance runners among 14.4 and 18 volt cordless screwdrivers

Designed for long work applications, they break all records by driving up to 410 screws per battery charge (GSR 18 V-LI Professional).

Cordless Drill/Drivers GSR 14.4 V-LI and 18 V-LI Professional
The long-distance runners

- ▶ Highest number of screws driven per battery charge in their class (14.4 V: 240 screws, 6 x 60 mm, in softwood; 18 V: 410 screws, 6 x 60 mm, in softwood) due to innovative lithium-ion technology
- ▶ Fast work progress due to powerful motor
- ▶ Optimum combination of compact design, high performance capability and low weight (1.7 kg, 14.4 Volt)

Flexible use with Bosch Premium lithium-ion technology

All 14.4 and 18 volt cordless tools can be operated with either of the two different battery sizes, Premium and Compact (200 g lighter), to adapt the runtime and weight to suit the respective application range. You will find Bosch product offers with a Compact battery for selected cordless tools which especially require low weight (see Page 6 for more information).

Unbeatable battery runtime

The independent testing laboratory SLG Prüf- und Zertifizierungs GmbH, in Hartmannsdorf in Saxony, has found that: “this is the largest number of screwdriving applications (6 x 60 mm in softwood) in this cordless drill/driver class.”

Cordless Drill/Drivers GSR 14.4 V-LI and 18 V-LI Professional with Compact battery
The long-distance runners with Compact battery

- ▶ Up to 100 screws (6 x 60 mm) in softwood with only one battery charge (14.4 Volt)
- ▶ Fast work progress due to powerful motor
- ▶ Low weight (only 1.5 kg, 14.4 Volt) due to Compact battery for even more comfortable working

“The GSR 18 VE-2-LI Professional far exceeded my expectations. It even drives 200 mm screws through any wood with ease, and it’s virtually unbreakable thanks to its built-in protective electronics.”

Peter Schwarz,
world champion of carpenters (World Skills 2009)

14.4/18 Volt **robustseries**

Extremely robust cordless tools – Virtually indestructible

The cordless tools in the 14.4/18 Volt **robustseries** from Bosch have been developed for the toughest conditions on the construction site, where robustness and high performance capability are especially important. The new Bosch Electronic Motor Protection (EMP), which is unique on the market, protects the motor against overload, therefore ensuring a long lifetime.

Award-winning!
Bosch cordless drill/drivers and cordless combis are truly excellent, award-winning tools. In 2009, they received the Plus-X Award for High Quality and Design from an independent jury.

14.4/18 Volt robustseries	
▶ Drill/Drivers	P. 26
▶ Combis	P. 27
▶ Multi-Drivers	P. 28
▶ Impact Drivers/Wrenches	P. 29
▶ Angle Grinder	P. 30
▶ Rotary Hammer	P. 30
▶ Circular Saw	P. 31
▶ Sabre Saw	P. 31

Virtually indestructible – extremely robust cordless tools

Developed for the toughest conditions on the construction site, all of the tools in this class have the innovative Bosch Electronic Motor Protection (EMP) for a particularly long lifetime. Thanks to their tough Dura-Shield housing, the cordless drill/drivers and cordless combis remain fully functional even after being dropped from a height of two metres onto concrete.

Bosch Electronic Motor Protection (EMP)

The innovative EMP in all **robustseries** cordless tools automatically shuts down the motor if it stalls during an extremely tough application, therefore ensuring a longer lifetime. This prevents the motor from burning out like tools from other manufacturers.

Cordless Drill/Drivers GSR 14.4 VE-2-LI and GSR 18 VE-2-LI Professional

Extremely robust – Virtually indestructible

- For the toughest screwdriving and drilling applications with high torque in wood and metal
- Long lifetime and high power due to unique Bosch high-performance motor and 2-speed planetary gearbox with metal gear wheels

Cordless Combis GSB 14.4 VE-2-LI and GSB 18 VE-2-LI Professional

Extremely robust – Virtually indestructible

- For the toughest screwdriving and drilling applications with high torque in wood and metal, and impact drilling applications in masonry up to 15 mm (18 V)
- Long lifetime and high power due to unique Bosch high-performance motor and 2-speed planetary gearbox with metal gear wheels

Extremely robust exterior

Due to the flexible Dura-Shield housing, all **robustseries** cordless drill/drivers and cordless combis remain fully functional even after being dropped from a height of two metres onto concrete.

Small, lightweight, powerful: the innovative Bosch EC motor

Bosch is the only manufacturer to offer a brushless motor in its compact Cordless Rotary Hammers GBH 18 V-LI Professional and GBH 36 V-LI Compact Professional (P. 35). The high efficiency enables a very compact and lightweight design without having to sacrifice power. Other advantages: maintenance-free (no brushes), dustproof and therefore particularly durable.

“Installing ventilation pipes involves rounding off a lot of edges or cutting pipes on a daily basis. The cordless angle grinder from Bosch is ideal for that. It has a high material removal rate and high cutting performance, and it’s extremely light. It gives us the freedom we need, especially in tight spaces or overhead, because it has no cable.”

Walter Dreyer,
ventilation and air-conditioning systems fitter

NEW! Cordless Angle Grinder
GWS 18 V-LI Professional

The most powerful 18 volt angle grinder

- ▶ Highest material removal rate and cutting performance in its class per battery charge
- ▶ Extremely robust and resilient 4-pole high-performance motor for a long lifetime
- ▶ Compact design and low weight (only 2.3 kg) – optimised for fast adjustment work

NEW! Cordless Rotary Hammer
GBH 18 V-LI Professional

Unsurpassed combination of power and weight

- ▶ Best power-to-weight ratio (1.7 joules to 2.6 kg) in its class
- ▶ Up to 115 holes in concrete (6 x 40 mm) with one battery charge due to efficient Bosch EC motor
- ▶ Pneumatic hammer mechanism, optimised for drilling holes of 6 to 10 mm in concrete (max. 18 mm)

Cordless Circular Saw GKS 18 V-LI Professional

Highest cutting performance in its class

- ▶ Cut up to 50 chipboards (900 x 19 mm) to length with only one battery charge
- ▶ Mobile powerful tool: makes cuts up to 51 mm deep

Cordless Sabre Saw GSA 18 V-LI Professional

Highest cutting performance in its class

- ▶ Cut up to 100 spruce beams (100 x 100 mm) to length with only one battery charge
- ▶ Easy handling: easy and fast saw blade changes due to new SDS mechanism

“It’s not unusual for us to have to drill 15,000 holes per job. The GBH 36 V-Li Professional has absolutely convinced my employees with its power and battery runtime.”

Meinolf J. Döppeler,
contractor

36 Volt series

As powerful as corded

Cordless tools in the 36 Volt series from Bosch offer a completely new power dimension that can easily compete with the capabilities of corded tools. The advantage for professionals is that they finally have an equivalent alternative to corded tools, and they can entirely rely on the performance capability of their cordless tools.

36 Volt series

► Rotary Hammers	P. 34
► Drill/Driver	P. 36
► Combi	P. 36
► Circular Saw	P. 37
► Sabre Saw	P. 37

The most powerful Bosch cordless rotary hammers

These 36 volt cordless rotary hammers offer an optimum combination: the freedom of working without a cable combined with the power of a corded tool. The GBH 36 V-LI Professional (and also the VF version) is, for example, as fast as the best 2kg corded hammer – which, by the way, is also a Bosch hammer.

Cordless Rotary Hammer GBH 36 VF-LI Professional

As powerful as corded

- ▶ As powerful as corded: up to 195 drilled holes (6 x 40 mm in concrete) with only one battery charge, ideal for outdoor use
- ▶ Pneumatic hammer mechanism with chisel function, optimised for drilling holes of 8 to 16 mm in concrete (max. 26 mm)
- ▶ Comes complete with a keyless chuck that also makes it suitable for drilling in wood and metal with straight-shank drill bits

Cordless Rotary Hammer GBH 36 V-LI Professional

As powerful as corded

- ▶ As powerful as corded: up to 195 drilled holes (6 x 40 mm in concrete) with only one battery charge, ideal for outdoor use
- ▶ Pneumatic hammer mechanism with chisel function, optimised for drilling holes of 8 to 16 mm in concrete (max. 26 mm)

The robust SDS-plus X5L drill bit sets new standards

The solid tungsten carbide head of the SDS-plus X5L is extremely robust and exceptionally powerful – ideal for drilling holes in metal and reinforced concrete. This drill bit has a particularly long lifetime due to its specially designed cutting edges, therefore ensuring dimensional accuracy through to the last drilled hole.

Bosch Vibration Control for more comfortable working

The anti-vibration system in the GBH 36 V-LI Compact Professional ensures energy-saving, low-fatigue working. Vibration is noticeably reduced because the handle is decoupled from the hammer mechanism and the gearbox, and a special pressure spring is fitted in the rear section of the housing. More information about Bosch Vibration Control can be found at www.bosch-vibrationcontrol.com.

Cordless Rotary Hammer GBH 36 V-LI Compact Professional

Unbeatably light – and compact

- ▶ As powerful as corded and only 2.9 kg: up to 100 drilled holes (6 x 40 mm in concrete) with one battery charge, ideal for indoor use
- ▶ The lowest vibration levels of 12 m/s² for low-fatigue working due to Bosch Vibration Control
- ▶ Pneumatic hammer mechanism, optimised for drilling holes of 6 to 10 mm in concrete (max.18 mm)

The most powerful Bosch cordless tools

The most power without a cable: durable, robust and, above all, powerful – 36 volt cordless tools from Bosch provide everything you need on the construction site. Screwdriving, drilling and sawing with these 36 volt cordless tools is a class apart.

Cordless Drill/Driver GSR 36 V-LI Professional

Screwdriving as powerfully as corded – over 500 times

- ▶ As powerful as corded: up to 535 screws (6 x 80 mm in softwood) with only one battery charge
- ▶ Enormous power: it even drives 12 mm screws without a drop in speed
- ▶ Extremely robust: fully functional, even after being dropped two metres onto concrete, thanks to flexible Dura-Shield housing

Cordless Combi GSB 36 V-LI Professional

Powerful multifunction tool for impact drilling, drilling and screwdriving

- ▶ As powerful as corded: up to 115 drilled holes (8 x 50 mm in masonry) with only one battery charge
- ▶ Enormous power: it even drives 12 mm screws without a drop in speed
- ▶ Extremely robust: fully functional, even after being dropped two metres onto concrete, thanks to flexible Dura-Shield housing

Flexible Bosch battery system

All 36 volt cordless tools can be operated with either of the two different battery sizes, Premium and Compact (500 g lighter), to adapt the runtime and weight to suit the respective application range (see Page 6 for more information).

Cordless Circular Saw GKS 36 V-LI Professional

As high-torque as corded

- ▶ As powerful as corded: cut up to 95 chipboards (900 x 19 mm) to length with only one battery charge
- ▶ Mobile powerful tool: makes cuts up to 54 mm deep
- ▶ Practical: the innovative hanging hook keeps the circular saw within reach at all times

Cordless Sabre Saw GSA 36 V-LI Professional

As high-torque as corded

- ▶ As powerful as corded: cut up to 195 spruce beams (100 x 100 mm) to length with only one battery charge
- ▶ Mobile powerful tool: the stroke length of 28 mm allows for a maximum cutting depth of 250 mm
- ▶ Easy handling: easy and fast saw blade changes due to SDS mechanism

NEW! Bosch L-BOXX, the intelligent transport and storage system.

Its key advantages: versatile, fully splash-protected, crash-tested safety, problem-free transport and the easiest handling thanks to a revolutionary click lock mechanism. Its special bonus feature: it is fully compatible with the German TÜV-tested in-vehicle equipment system from Sortimo.

"As joiners, we often have to take the tools and the boxes of small items from the workshop to the car, then to the customer, and finally back to the vehicle again. The new L-BOXXes are perfect for quick and efficient work."

Skender A., joiner

Extremely robust

- Extremely robust construction
- Each L-BOXX can carry up to 25 kg; the lid has a load bearing capacity of 100 kg
- Fully splash-protected

Convenient transport

- Ergonomically shaped carrying handles and side handles for convenient and safe transport
- Transport of stacked, clicked-together L-BOXXes weighing up to 40 kg in total

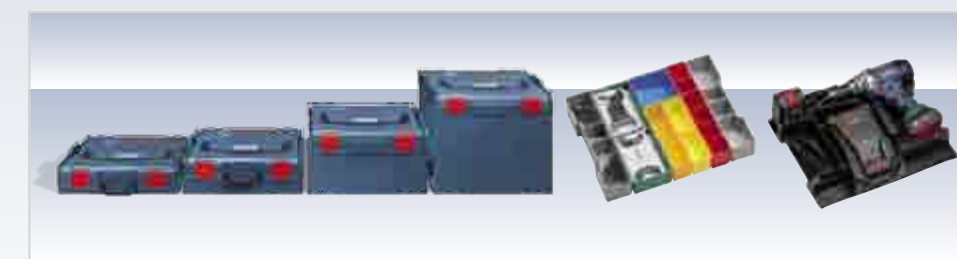

Simply click into place

- Unbeatably easy system of clicking together and separating the different L-BOXXes
- Simultaneous transport of multiple tools is easy and convenient

Versatile storage

- Four L-BOXX sizes
- Comprehensive Sortimo range of inlays
- The boxes can therefore be configured in virtually any way to store power tools, accessories and consumables

Mobile working with maximum precision

Bosch production tools are designed to suit special production processes which require standardised work steps. The EXACT and ANGLE EXACT series stand out from other industrial cordless shut-off screwdrivers due to their exceptionally high repeatability and precision of the torque, which is made possible by the unique EXACT clutch.

They impress with their superior lifetime and optimum energy efficiency. In assembly situations in which cables or pneumatic hoses get in the way, the EXACT series allows for optimised processes, high-quality products and decreasing costs.

More information about the EXACT cordless screwdrivers and Bosch production tools can be found at www.boschproductiontools.com.

You can now look forward to a unique sound experience on the construction site with the PowerBox 360°

Robust. Versatile. Innovative. What applies to our Bosch cordless tools also applies to the new construction site radios. The only difference is that the clever combination of radio, MP3 connection, charger* and power distributor sounds a lot better. The four speakers and the subwoofer provide an unbeatable 360° sound experience on the construction site. Work is therefore twice as much fun with Bosch.

Available from October 2010 onwards.

NEW! PowerBox GML 20 and GML 50 Professional
Unbeatable 360° sound on the construction site

- First construction site radio with subwoofer for the best sound
- Powerful 20/50 watts for a perfect 360° surround sound experience
- Integrated battery charger for all 14.4 and 18 volt lithium-ion batteries (GML 50 Professional)

*GML 50 Professional only
